

***C. difficile* infection (CDI)**

Alert Card

**Please keep this card
with you at all times**

Please show this card to any healthcare professional you have contact with, for example Doctors, Nurses, Pharmacists and Dentists

Contact your GP without delay if diarrhoea symptoms persist or restart

Information to the healthcare professional

**One
Gloucestershire**
Transforming Care. Transforming Communities

The holder of this card has previously had *C. difficile* infection (CDI)

Please be cautious when you prescribe antibiotics for this patient as this could cause recurrent CDI

Before prescribing any antibiotics, please refer to the local antimicrobial prescribing guidelines

If this patient has diarrhoea, consider whether this could be *C. difficile* infection and treat as per QR code
