

Report Title GHC-24022026-618288
Report Date Range As at 28 February 2026 and 31 January 2021
Extract Date 11/03/2025

Gloucestershire Health and Care
NHS Foundation Trust

1a. The number of young people (18-24 year olds inclusive) receiving mental health treatment - both community and inpatient.

As at 28 February 2026	1296
------------------------	-------------

Note - we have defined treatment as on the caseload of a mental health community team with at least one contact or on an inpatient ward as at 28 February 2026. The age we have taken is the age the patient is at 28 February 2026.

2a. The number of them who have been receiving treatment more than once (not their first time).

Before 28 February 2026	547
-------------------------	------------

Note - we have defined treatment as on the caseload of a mental health community team with at least one contact or on an inpatient ward before 28 February 2026. The age we have taken is the age the patient is at 28 February 2026.

1b. The number of young people (18-24 year olds inclusive) receiving mental health treatment - both community and inpatient.

As at 31 January 2021	1230
-----------------------	-------------

Note - we have defined treatment as on the caseload of a mental health community team with at least one contact or on an inpatient ward as at 31 January 2021. The age we have taken is the age the patient is at 31 January 2021.

2b. The number of them who have been receiving treatment more than once (not their first time).

Before 31 January 2021	315
------------------------	------------

Note - we have defined treatment as on the caseload of a mental health community team with at least one contact or on an inpatient ward before 31 January 2021. The age we have taken is the age the patient is at 31 January 2021.

3. I would like the most recent figures you have available, and the same figures from January 2021.

See questions 1 and 2, which have been split by the two time periods.
